**Environmentally Friendly!  
No more heavy lifting!**

Redesigned with new materials the Economy Filter Pumper will change the way you care for your equipment. Transfer fluids to your equipment effortlessly with the Economy Filter Pumper!

Extend your equipment's life by using the Economy Filter Pumper as a maintenance tool. Don't expose your oil reservoir to harmful contaminants, pump your oils through our filter or your return filter. Why struggle to pour your fluids from awkward 5-gallon buckets. Pump the oil instead of spilling it!

You will be amazed at the speed and efficiency of the Economy Filter Pumper. Many parts have been redesigned with new materials for strength, durability, long-life, and reduced product costs.

**No more mess!**  
**Environmentally**  
**Friendly**

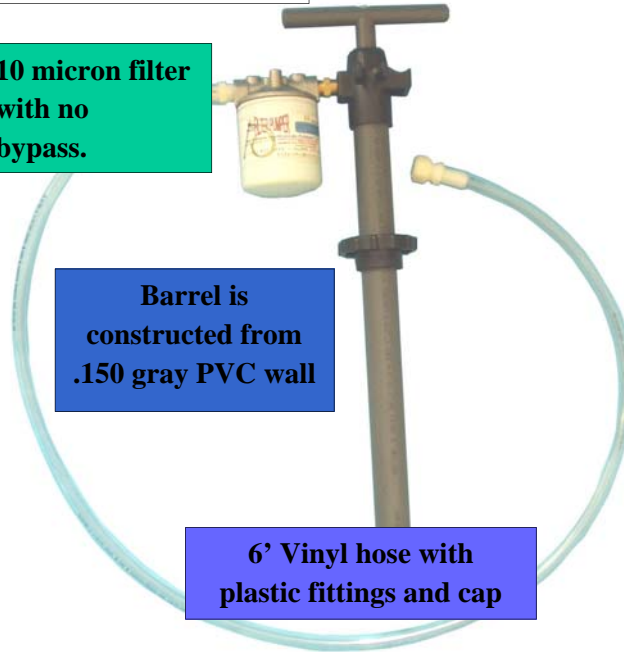

The Economy Filter Pumper has been redesigned with new durable materials to reduce the cost of the product. Economy pumps come with a 30 day warranty!!!

Solid PVC rod and handle for great strength and durability

10 micron filter with no bypass.

Barrel is constructed from .150 gray PVC wall

6' Vinyl hose with plastic fittings and cap

The Economy Filter Pumper has a threaded connector which secures the barrel, prevents spills, and seals away contaminants and water. A special vent groove allows maximum fluid transfer while maintaining a proper seal.

**No Filter bypass!**  
**When pumping becomes difficult, simply replace the filter.**

## The Economy Filter Pumper

Handle locks down easily with a screwdriver to keep pump from rocking.

## Measure while you pump

with the economy bucket pump!

**4 complete strokes = approximately 1 quart**

**5 Gallons of fluid can be pumped in approximately TWO AND A HALF MINUTES!!!**

## **Original Filter Pumper**

also offered

Ask your local distributor or contact us for pricing of the original model. It is offered in several sizes, 5 and 6 gallon bucket, 16 and 55 gallon drums and comes with a 6 month warranty.
